Nigeria Communication Base Station Project

Overview

Universal Service Provision Fund (USPF) has unveiled plans to deploy 1,000 base transceiver stations (BTS) across rural communities in Nigeria by 2030. The initiative, in collaboration with development partners, aims to bridge the digital divide and foster socio-economic growth in underserved areas.

Nigeria Communication Base Station Project

BTS

6 days ago· The Fund is being managed to facilitate the widest possible access to affordable telecommunications services for greater social equity and inclusion for the people of Nigeria.
