# Nigeria exports photovoltaic modules

## Overview

---

How does solar power distribution work in Nigeria?

Solar power distribution occurs predominantly through business-to-business linkages connecting manufacturers with distributors, and distributors with retailers. Solar energy companies operating in the Nigerian market can sell solar products through partners who have marketing and sales agents or through employed marketing staff.

Does MTN Nigeria offer solar energy solutions?

MTN Nigeria is in partnership with Dutch Nova Lumos to provide accessible solar energy solutions to homeowners and small businesses in Nigeria. Some of these solutions include their LUMOS Eco Solar kit (80W solar panel and 200Wh battery) and LUMOS Prime Solar Kit (160W solar panel and 300Wh battery).

Does Nigeria have a solar energy sector?

This report provides an overview of the solar energy sector in Nigeria to facilitate a better understanding among the Dutch businesses that wish to explore doing business in that sector. The report is based on data gathered from existing databases and open sources.

When will Nigeria's electricity capacity be expanded to 25,000mw?

In July 2020, Siemens Nigeria officially received approval from the Federal Government of Nigeria for the pre-engineering phase of expanding Nigeria's electricity capacity to 25,000MW. This project, which is expected to be completed in 2025, will take place in three phases.

Where can I buy electricity in Nigeria?

The best-known example in Nigeria is Lumos, which has MTN, the country's largest telecom operator, as its partner. It is possible to buy a Lumos package through most MTN branches against a basic upfront fee while the electricity

payments are processed through mobile phone credit.

How much electricity does Nigeria use?

The current daily power demand is estimated at 17,520 MW while peak generation capability is 5,300 MW. According to the World Bank Electric power consumption (kWh per capita) in Nigeria stands at 144.52 (compared to over 5,500 in Europe) while other sources put it even lower at 123kWh.
