Niue Energy Storage Equipment Renovation Project

Overview

Will Niue generate 80% of its electricity by December 2025?

This project aims to enable Niue to generate 80% of its electricity from renewable energy by December 2025. This afternoon marked the groundbreaking ceremony for the Niue Renewable Energy Project Phase 2. This project aims to enable Niue to generate 80% of its electricity from renewable energy by December 2025.

How did New Zealand support Niue's battery energy storage system?

In addition to Australia's support, the New Zealand Government contributed \$2.5 million to relocate and restore Niue's Battery Energy Storage System (BESS). This funding has allowed the Ministry to repair the grid control system, procure necessary fuel tanks, and install cabling and connections.

What is MFAT doing in Niue?

MFAT is in the 'awaiting approval' stage of a Solar PV, Battery Energy Storage System (BESS) and electrical grid upgrade project in Niue. The current scope of the project includes the design, procurement, installation, and commissioning of: Furthermore, it is expected the EPC contractor will include provision for a 2 year O&M contract.

What does the Minister of infrastructure say about Niue's New Power Station?

The Minister of Infrastructure, Hon. Crossley Tatui extended his appreciation to the Australian and New Zealand Governments, saying, "The construction of this new power station is a vital piece of infrastructure for Niue's development and well-being. This achievement would not have been possible without the support of our regional partners."

When will Niue's New Power Station be built?

Today, the Deputy Prime Minister of New Zealand, Rt Hon. Winston Peters is here to break ground on what will become a cornerstone of Niue's renewable

energy infrastructure. The new power station, funded through contributions from both Australia and New Zealand, is slated for completion and commissioning by mid-September.

When will Niue's energy project start?

The initial phase of clearing the surrounding land will be completed by the end of this year, setting the stage for physical construction to commence in early 2025. In 2015, Niue launched the Strategic Energy Roadmap, with the ambitious goal of reaching 80% renewable energy production by 2025.
