

## SolarMax Energy Systems

# North Macedonia energy storage power station grid connection time

## Overview

---

In such situations, connection time is between several months and several years, depending on how long it takes to purchase the equipment and obtain all permits, the CEO revealed. It includes project design, paperwork and, the most complex part, solving property issues, Saltirovski stressed. Will North Macedonia get a grid connection?

Like other countries in Southeast Europe, North Macedonia is flooded with investor applications for the grid connections of new solar and wind projects. The transmission system operator (TSO) MEPSO has a huge waiting list for the preliminary grid connection. In her words, the investors want to connect a total capacity of 9,000 MW.

How does North Macedonia generate electricity?

North Macedonia has historically relied on hydropower for a significant portion of its electricity generation. The country has utilized its rivers to develop hydropower plants. There have been also efforts to harness wind energy, and several wind projects have been proposed or are under development.

Why did the new government of North Macedonia need securing energy supplies?

Firstly, the Ministry of Energy, Mining, and Mineral Resources needed to address a critical issue: securing energy supplies for the winter. Sanja Božinovska stated that the new Government of North Macedonia inherited a challenging situation in the energy sector and had to make every effort to ensure a reliable energy supply throughout the winter.

Who regulates the energy sector in North Macedonia?

Energy Regulatory Commission (ERC): The Energy Regulatory Commission regulates and oversees the energy sector in North Macedonia. ERC is responsible for ensuring fair competition, consumer protection, and adherence to legal and regulatory standards. 3.

Does North Macedonia have a natural gas network?

North Macedonia doesn't have a significantly developed natural gas network, there is only one interconnector with Bulgaria. When the ministry was established, the European Investment Bank (EIB) and EBRD informed it that the tendering procedure for the interconnector with Greece had been canceled.
