

## SolarMax Energy Systems

# Norway energy storage battery subsidies

**ESS**

## Overview

---

What is Norway's battery strategy?

from fossil to renewable energy in Norway and abroad. The battery strategy forms part of the Government's Green Industrial Initiative, and the value chain or batteries is one of seven pillars in this initiative. The others are the value chains for offshore wind, hydrogen, carbon capture and storage (CCS).

Does Norway have a battery market?

Today Norway has not one, but two huge battery markets. "There are two market drivers for batteries: EVs and stationary energy storage. Energy storage is coming on strong now. It's the key to turning intermittent wind and solar into a stable energy source," explains Pål Runde, Head of Battery Norway.

Why is the battery value chain important in Norway?

arket share in several parts of the battery value chain. The battery value chain has the potential to become a major new, profitable industry in Norway, giving us a chance to contribute to emission reduction, create green jobs and aid the transit.

What is the energy need for battery production in Norway?

ing and aligning the project with relevant stakeholders. Local resi Norwegian Environment Agency, 21 March 2022 Energy needs The energy needed for battery production in Norway is uncertain despite the fact that production capacity is normally measured b.

How much does a battery cost in Norway?

ccount for around 10% of the value of Norwegian exports. In a few years, the price of battery energy storage systems (BESS) will typically be between USD 150/kWh and USD 250/kWh (currently USD 300–500/kWh), which means that if 25% of the Norwegian battery cell production went to BESS for

domestic/export purpos.

How can Norway improve the competitiveness of the EU battery industry?

enhance the competitiveness of the EU battery industry. Norway is mentioned as a potential alliance with a view to securing material resources an alue chain.Strategy and battery initiatives in the UK The British Government has allocated GBP 2.8 b
