

SolarMax Energy Systems

Norway silent container power generation

215kWh

8,000+ Cycles Lifetime

IP54 Protection Degree

Overview

What is Norway's largest container terminal?

Yilport Oslo is Norway's largest container terminal. The shore power plant for the container ships will be ready in 2024. Based on the call statistics for 2020, the plant has the potential to cut emissions of 2,371 tonnes of CO₂ and 33 tonnes of NO_x per year. 11.

Can Norway harness wave energy?

While the technology for harnessing this energy has not yet reached commercialisation, Norway's offshore expertise and extensive coastline position the country perfectly to realise wave energy's role in achieving a successful energy transition for Norway, Europe and the world.

How much energy will Norway produce in 2022?

According to the 2022 edition of Energi21, Norway's strategy for the research, development and commercialisation of new climate-friendly technologies, developing 20% of wave energy's technical potential in Norway could produce approximately 12-30 TWh of electricity per year.

Can offshore wind energy be commercialised in Norway?

It is only due to dedicated research and investment efforts that they advance to commercialisation, and the associated costs reduce as a result. Again, we can use offshore wind as an example. A national strategy for establishing offshore wind energy in Norway was first mentioned in 2007, in Report to the Storting no. 34, 2006-2007:.

Why should Norway invest in wave energy?

Norway's offshore expertise and extensive coastline position the country perfectly to realise wave energy's role in the energy transition. Published: 5. Aug 2024 | Last edited: 5. Dec 2024 Wave energy represents an exciting opportunity for Norway.

What are some examples of wave energy research in Norway?

Norway used to be at the forefront of wave energy research. For example, wave energy pioneers Kjell Budal and Johannes Falnes started their activities in the 1970s, and made significant contributions to principles that are used today in modern WEC design. For example, in 2022, construction started on the upcoming Norwegian Ocean Technology Centre.
