

SolarMax Energy Systems

Norwegian Solar Lighting System

Overview

Why is Norway a good choice for solar energy solutions?

This has led to Norway to become an expert in devising solar energy solutions for out of the way places. Safedesign has designed a rooftop safety system that eliminates the need for scaffolding and makes solar panels more affordable. Industry was also bitten by the solar energy bug.

Are Norwegian solar panels eco-friendly?

The ecological footprint of solar panels made with materials from Norway is therefore extremely small. REC Solar's factory in Fiskå in southwestern Norway has even been awarded a certificate for production of the world's cleanest silicon. Not only is Norwegian silicon production the world's cleanest, it is also the world's most energy efficient.

Why are solar cells so popular in Norway?

Norwegians love to be outdoors. They flock to their cabins in the mountains, in the woods or by the shore to spend their weekends or holidays in beautiful, peaceful surroundings. This passion for nature has made Norway one of the most attractive markets for solar cells.

Is Norway a good place to buy solar cells?

This passion for nature has made Norway one of the most attractive markets for solar cells. Although some of the appeal of cabin life is to take a time-out from technology, electricity is still needed to power lamps, radios and, now, mobile phone chargers.

Is Norwegian silicon the world's cleanest?

Not only is Norwegian silicon production the world's cleanest, it is also the world's most energy efficient. For example, the company Dynatec Engineering has developed a new method that has been demonstrated to grow silicon 40 times faster and with far greater energy efficiency than other methods.

Norwegian Solar Lighting System

Nordlux

It charges by sunlight during the day and switches on with a soft, warm light when it detects motion. Create a cosy atmosphere on your terrace, balcony or in the garden - no wiring needed.

Outdoor Cabinet BESS

50 kWh/500 kWh Battery Storage System
Industrial and Commercial Energy Storage

-  **All in One**
Integrating battery packs
-  **Intelligent Integration**
Integrated photovoltaic storage cabinet
-  **High-capacity**
50 - 500kWh
-  **Rated AC Power**
50 - 100kW
-  **Degree of Protection**
IP54
-  **Altitude**
3000m(>3000m derating)
-  **Operating Temperature Range**
-20~60°C;(Derating above 50 °C)

Norwegian floating solar system launched at Chilean salmon farm

Norwegian floating solar developer Alotta has announced the launch of a floating solar power system at a salmon farm in Chile.

Top Solar Street Light Suppliers in Norway

Modern solar street lights are composed of solar panels, built-in lithium-ion batteries, battery chargers, control systems, automatic controls, motion sensors, and poles.

 **Efficient Higher Revenue**

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPPT Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High Power Modules

 **Intelligent Simple O&M**

- IP66 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

 **Flexible Abundant Configuration**

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 Units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation
