Oman power plant power generation

Overview

Oman's energy supply is entirely generated by nationally-produced natural gas and oil products and the country is a large exporter of oil and gas. The government has recently launched the "Residential PV Initiative" to foster the private use of solar PV.

Oman power plant power generation

Welcome to Agc Oman

The project comprises of two power generation blocks with a combined contracted capacity of 1509 MW, located at Ibri in the Al Dhahirah Governorate of the Sultanate of Oman.
