

SolarMax Energy Systems

Other uses of photovoltaic panels installed on roofs

Overview

There are times you might need to look into other options besides rooftop solar. In some cases, you could see more energy production from alternative solar options. Here are a few of those other solar options for you.

Rooftop solar systems are common because they make sense in many ways. Aesthetically, solar panels on the rooftop can be out of sight. They also don't take up space you would.

Another big reason you might look into solar arrays besides rooftop might be that you live in a condo or other shared building. Rooftop.

Ground-Mounted solar is an excellent option if you find yourself in a situation where a rooftop doesn't make sense. There are a couple of variations for ground-mounted.
