

SolarMax Energy Systems

Outdoor Energy Storage Battery Solution Company

Overview

Why should you choose our outdoor battery storage system?

Our outdoor battery storage system offers scalable capacity to future-proof your energy needs. Whether for industrial lithium battery storage or commercial lithium battery storage, you can seamlessly expand storage as your business grows, thanks to our modular design.

What is a battery energy storage system?

(Source) Battery Energy Storage System (BESS) uses specifically built batteries to store electric charge that can be used later. Much research has resulted in battery advancements, transforming the notion of a BESS into a commercial reality.

What is a commercial lithium battery storage solution?

Designed as a robust industrial lithium battery storage solution, it provides backup power, peak shaving, and grid stabilization for uninterrupted operations. For businesses like hospitals and data centers, it also serves as reliable commercial lithium energy storage, helping reduce electricity costs and enhance energy resilience.

Who uses enerblock outdoor battery storage system?

Our EnerBlock outdoor battery storage system supports a wide range of industries, including manufacturing, data centers, hospitals, and utility companies. Designed as a robust industrial lithium battery storage solution, it provides backup power, peak shaving, and grid stabilization for uninterrupted operations.

How can a battery storage system help a business?

Energy purchased during off-peak hours can be stored using battery storage systems. It can be activated to distribute electricity when tariffs are at their highest, lowering energy expenses. Battery storage systems can also be set

up as an uninterrupted power source, a valid insurance policy for enterprises.

What certifications does our outdoor energy storage system meet?

Our outdoor energy storage system meets rigorous international standards, including GB/T 36558, IEC 62933, UL1973, and UL9540A. These certifications ensure top-tier safety and performance, making it a trusted option for battery technology for industrial use and commercial energy needs. Do not hesitate and fill the request form.
