

## SolarMax Energy Systems

# Outdoor Portable Power Donation

## Overview

---

Can I donate a used hand & power tool?

It particularly focuses on improving veteran health care access, helping homeless and disabled vets and assisting veterans suffering from post-traumatic stress disorder (PTSD). They happily accept used hand and power tools through their Pickup Please donation program, and will come right to your door to pick them up.

Why should you buy a portable power station?

The premium portable power station with its long-lasting rechargeable battery can keep phones, laptops, cameras, or even small appliances running, whether off the grid or in need of backup power.

Can you take a portable power station camping?

You can take any good portable power station camping and get good use out of it, as long as you don't mind closely monitoring your power usage. The difference with the Jackery Solar Generator 1000 is that it comes with two of Jackery's powerful SolarSaga 100X solar panels that can charge the battery in about eight hours.

What can a portable power station charge?

All portable power stations can charge up small gadgets like phones and laptops or be used to power lighting. Most can handle small appliances like mini-fridges or TVs. If you want to use power tools, an AC unit, or in the UK, a kettle, you need to be able to draw thousands of watts.

How much power can a portable power station hold?

While a particular power station might claim to hold 1,000 watt hours, the actual amount of usable power you can get out of it is a different story. The best portable power stations also have an onboard computer that shows you how much energy is left in your unit, as well as how much power it's currently

using.

Are portable power stations expensive?

Updated June 2025: We've added a Bluetti model, honorable mentions from EcoFlow and Acer, and a testing and FAQ section. Portable power stations can be very expensive, but discounts, sales, and deals are common. If you can afford to wait, you can likely get your chosen power station for less than the listed MSRP.
