

## SolarMax Energy Systems

# Outdoor battery cabinet BMS R

## Overview

---

What is included in a battery cabinet?

Each battery cabinet includes an IP56 battery rack system, battery management system (BMS), fire suppression system (FSS), HVAC thermal management system and auxiliary distribution system. Outdoor liquid cooled and air cooled cabinets can be paired together utilizing a high voltage/current battery combiner box.

What is an outdoor NEMA 3R Battery Cabinet?

Outdoor NEMA 3R modular design easily expands and can accommodate any configuration of batteries and DC power equipment. This becomes a great alternative for substations with limited interior space allowing for consolidation of your DC power system. HindlePower's Outdoor Battery Cabinet takes a proactive approach to hydrogen mitigation.

What is an outdoor Battery Cabinet?

HindlePower's Outdoor Battery Cabinet is constructed of extremely durable injected foam panels that achieve a level of thermal performance not previously seen in traditional battery cabinets. Feel confident your batteries will maintain 65°F for outdoor ambient temperatures down to -40°F and 77°F for outdoor ambient temperatures to 122°F.

What is a battery cabinet?

Equipped with the HindleHealth System, the Battery Cabinet will keep your battery at the ideal temperature in the most extreme of environments, giving you peace mind. HindlePower's Outdoor Battery Cabinet takes a proactive approach to hydrogen mitigation.

What temperature will my outdoor Battery Cabinet maintain?

Feel confident your batteries will maintain 65°F for outdoor ambient temperatures down to -40°F and 77°F for outdoor ambient temperatures to

122°F. Take a look at our 3rd party test data [here](#) to view it yourself. HindlePower's Outdoor Battery Cabinet is certified to IBC 2012, CBC 2013, and IEEE 693 to the highest levels.

What are outdoor cabinets?

Outdoor cabinets are manufactured to be a install ready and cost effective part of the total on-grid, hybrid, off-grid commercial/industrial or utility scale battery energy storage system. BESS string setup examples are: Battery Packs utilize 280Ah Lithium Iron Phosphate (LiFePO4) battery cells connected in series/parallel.
