

## SolarMax Energy Systems

# Outdoor one-to-two solar integrated machine

LiFePO<sub>4</sub>

Wide temp: -20°C to 55°C

Easy to expand

Floor mount&wall mount

Intelligent BMS

Cycle Life:≥6000

Warranty :10 years

## Overview

---

Do ingecon solar inverters need a housing?

There is no need of any kind of housing, as it integrates various elements that are suitable for outdoor installation. The high-efficiency transformerless PV inverters, can feature two different models from the INGECON SUN PowerMax product range: B or X Series. Plug & Play technology.

What is a solar combiner box?

This combiner box has everything you need, circuit breakers, individual fuses for each string, and a surge protection device. Just hook your panels up to this box, and connect this box's output to your All-in-one solar input. What is a PV Combiner Box?

.

Do I need a combiner box for a solar array?

If you plan to connect a large solar array, you will probably need to put your panels in parallel to keep the voltage down. When you have more than 2 strings of panels in parallel, you need over current protection for each string. This is easily accomplished by using a combiner box. They are available below.
