

SolarMax Energy Systems

Outdoor power supply recommendation

Overview

Should you buy an outdoor power strip?

If those two sockets in your outdoor outlet aren't enough to fulfill your outdoor power needs, then you'll want to invest in a good outdoor power strip. These handy appliances can multiply a single socket into six or even 10, allowing you to power multiple strings of lights or various outdoor appliances simultaneously.

Are outdoor power strips weather resistant?

Outdoor power strips come in a variety of sizes, from small three-outlet models up to large 10-outlet beasts. Unlike indoor models, these rugged, weather-resistant power strips can endure extreme temperatures and even downpours. Understanding what weather conditions an outdoor power strip is rated to handle is key to purchasing the right one.

Should you buy a portable power station?

The term "portable" is stretching it sometimes. Batteries are heavy. The larger-capacity power stations are typically on wheels and have telescopic handles, and they are still tough to cart around. If you're looking for something you can actually carry on foot for a distance, you may need to temper your expectations on capacity.

Is zendure a good power supply?

Zendure also offers semi-solid-state batteries in its top-of-the-line SuperBase listed above, which it promises are more stable and resilient, therefore safer, and have a higher energy density. Some power stations can act as an uninterruptible power supply (UPS); others are classed as an emergency power supply (EPS).

What is the best portable power station?

By far the most portable power station in our guide, the EcoFlow River 2 Pro

weighs just 17 pounds and has a large handle along the back. The LiFeP04 battery inside is good for 768 watt-hours, and I managed to squeeze a little more out of it in my tests. The ports are great for camping trips, with everything you need to charge small gadgets.

Are outdoor power strips Wi-Fi Ready?

Some outdoor power strips are Wi-Fi ready, allowing them to connect to your home network. These smart power strips can be controlled via a smartphone app, which is ideal for turning on and off holiday lighting displays.
