What are solar wall pack lights?

Solar Wall Pack Lights are powered by the sun providing security lighting in outdoor wall applications with dusk to dawn sensor technology.

What is the difference between solar light and mounted light?

Solar light: Outdoor solar lighting systems use solar cells, which convert sunlight into electricity. Mounted light: A mounted light is a light fixture that is attached to a wall, ceiling, or floor. Lumen (lm): The lumen is the unit of luminous flux, a measure of the perceived power of visible light emitted by a source.

How does a solar wall light work?

This light is powered by solar energy, so you don't have to worry about running out of power or having to recharge the batteries. The LED Solar Wall Light is also very easy to install. You can simply mount it on the wall with the included hardware. The light will automatically turn on at dusk and turn off at dawn.

Where can a solar wall light be installed?
