Panama Mobile Energy Storage Charging Pile

Overview

How many charging stations are there in Panama Oeste?

In the province of Panama Oeste, there are 13 charging stations and 17 chargers, consolidating its position as an emerging area in terms of electric mobility. With 10 charging stations and 12 chargers, Veraguas completes the top five, showing growing development in infrastructure for electric vehicles.

How many charging points are there in Panama?

In Panama, the charging infrastructure for electric vehicles has grown significantly. With over 232 charging points distributed across the country, the ratio is remarkable: approximately one charger for every two fuel stations, which totals just over 560. This progress has not been accidental but is the result of a well-orchestrated strategy.

Is Panama accelerating towards a more sustainable future?

Panama is accelerating towards a more sustainable future with a notable increase in electric vehicle chargers for public use. The former Secretary of Energy of Panama shares the achievements and challenges on this path towards electric mobility. In Panama, the charging infrastructure for electric vehicles has grown significantly.
