Papua New Guinea Solar Onsite Energy

Overview

Papua New Guinea is taking significant steps to improve its energy infrastructure, focusing on renewable sources like solar power. The government recently launched a solar energy project in the Katima rural area of the Sinasina-Yongomugl District, Chimbu Province. Who is solar energy Papua New Guinea?

We are Papua New Guinea's leading solar energy company, providing high quality solar services for your home or business through renewable energy. WHY USE SOLAR?

Despite huge popularity in the rest of the world solar power has yet to take off in PNG.

Can solar replace fossil fuels in Papua New Guinea?

The potential for solar to replace fossil fuels in Papua New Guinea is high, according to Lighting Papua New Guinea, which has played a key, pivotal role in multilateral efforts to promote and foster solar and renewable energy investments and use in Papua New Guinea.

Is Papua New Guinea the perfect climate for solar?

According to Rick Hooper, Chief Executive Officer of Sydney-based solar company, Barefoot Power, Papua New Guinea has the perfect climate for solar energy. This makes it the key to achieving an ambitious government plan to bring electricity to the 70 per cent of Papua New Guineans who currently don't have access by 2030.

Does Papua New Guinea have electricity?

With a population of some 4.85 million, access to electricity in Papua New Guinea was just 22.93% in 2016, according to World Bank statistics compiled from officially recognized sources. That dropped to 15.47% for the rural population, but reached 72.69% for the urban population. Data is scanty and spans a wide range, however.

Does Papua New Guinea have a country Factsheet?

Specifically for Papua New Guinea, country factsheet has been elaborated, including the information on solar resource and PV power potential country statistics, seasonal electricity generation variations, LCOE estimates and cross-correlation with the relevant socio-economic indicators.
