Papua New Guinea large energy storage power station construction has started

Overview

How many MW is installed in Papua New Guinea?

As of 2022, Papua New Guinea had an installed capacity of about 580 MW total, broken down in the table below. Installed renewable energy capacity in Papua New Guinea, as of 2022. Originally published by IRENA. Operating projects in Papua New Guinea. Table only includes projects captured by Global Energy Monitor's power sector trackers.

Is Papua LNG project securing SPAs?

Many LNG projects under construction throughout the world are having trouble securing SPAs. Experts from the Institute for Energy Economics and Financial Analysis believe that by the time the Papua LNG project comes online, the global natural gas market may be saturated which would lower anticipated pricing.

Does Papua New Guinea have oil & gas extraction projects?

According to Global Energy Monitor's Global Oil and Gas Extraction Tracker (March 2024 release), Papua New Guinea has five discovered oil and gas extraction projects: the Pasca Oil and Gas Field, the Stanley Oil and Gas Field, the Kutubu Oil Project, the P'nyang Gas Field, and the Elk-Antelope Gas Field.

Is TotalEnergies planning a large-scale LNG project in Papua New Guinea?

TotalEnergies, alongside ExxonMobil (37.04% interest), Santos (22.83%), and JX Nippon (2.58%), is planning a large-scale liquefied natural gas (LNG) project in Papua New Guinea (Papua LNG).

Will Papua LNG project affect gas prices?

Experts from the Institute for Energy Economics and Financial Analysis believe that by the time the Papua LNG project comes online, the global natural gas market may be saturated which would lower anticipated pricing. Moreover, the International Energy Agency predicts a 55% decrease in gas demand by

2050.

Does ExxonMobil have a Papua LNG project?

For comparison, ExxonMobil's PNG LNG project has secured commercial agreements for 62% of the project's nameplate capacity approximately six months before the project published its Final Investment Decision. Papua LNG has received significant pushback and has had challenges securing financing.
