Photovoltaic energy storage system 5kw cost

Overview

On average, a 5 kW solar panel system costs \$13,550, according to real-world quotes on the EnergySage Marketplace from 2025 data. However, your price may differ—solar costs can vary significantly from state to state. How much does a 5 kW solar system cost?

A 5 kW solar panel system costs \$13,550 in 2025 before incentives. A 5 kW solar panel system produces about 7,260 kWh of electricity annually, but the exact amount depends on where you live and how much sun you get. The federal solar tax credit ends December 31, 2025—homeowners have only until the end of this year to secure 30% savings.

What is a 5 kW solar system?

These 5 kW size grid-connected solar kits include solar panels, DC-to-AC inverter, rack mounting system, hardware, cabling, permit plans and instructions. These are complete PV solar power systems that can work for a home or business, with just about everything you need to get the system up and running quickly.

How many solar panels does a 5 kW solar system need?

Since most panels have a capacity of 300 watts, you would need 17 or more panels to achieve a total output of 5kW. If you need different power requirements, check out 4.5 kW solar systems [How Big is a 5 kW Solar System?](#)

.

Can a 5kw solar system save you money?

One of the most significant advantages of a 5kW solar system is its ability to save you money on electricity bills. On average, this system can save you up to \$1,551 per year. Over the 25-year lifetime of the solar panels, the total savings can amount to an impressive \$38,781. The rising cost of electricity is a major concern for many homeowners.

How does a 5kw Solar System work?

A 5kW solar system comprises essential components that work together to capture, convert, and store solar energy for powering the appliances. Here's a detailed breakdown: Solar Panels: The PV panels absorb the sun's rays and convert them into DC electricity.

What are the components of a 5kw Solar System?

The system includes the following components: 5kW solar panels: A total of ten 550W solar panels. 5kW solar system battery: A 48V Lithium version battery. 5kW solar system inverter: A 48V MPPT Solar Inverter. 5kW solar system installation kits: The installation kit includes a panel stand and DC wiring.
