

SolarMax Energy Systems

Poland photovoltaic folding container refrigerator wholesale

Overview

What is a solarfold photovoltaic container?

at full power. The solarfold Photovoltaic Container is mobile for universal deployment with a light and versatile substructure. The semi-automatic electric drive unit manoeuvres the mobile photovoltaic system into its operating position rapidly and smoothly along a length of around 123 metres.

Where can I buy photovoltaic panels?

The photovoltaic wholesaler Solmix offers the highest quality photovoltaic panels from reliable manufacturers at the lowest prices. In the online store you can order modules by the piece, as well as in pallet quantities. For photovoltaic installers we have also prepared a special container price offer for the purchase of photovoltaic modules.

What are solar-powered refrigerated containers used for?

Our solar-powered refrigerated containers are ideal as self-sufficient solutions for medicine, perishable goods or technical equipment. Our systems are in use 24/7 and have been developed especially for operation at high ambient temperatures of up to 52°C. All applications are supplied exclusively with photovoltaic and wind generators.

How do solar-powered refrigerated containers work?

All applications are supplied exclusively with photovoltaic and wind generators. Through the integration of special energy storage systems, the cooling of the solar-powered refrigerated container remains active even without sunshine thus the stored goods or products remain cool or frozen.

What is the solarfold container monitoring app?

The free monitoring app is part of your package and enables you to monitor the solarfold Container at any time, and from anywhere. The comprehensive functionality of the app supplies data about yield, energy flow and the amount

of electricity currently being fed into the grid – and all in real-time.
