Why should you buy a portable power station?

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

What is the best portable power station?

The Jackery Explorer 1500 Portable Power Station is our recommendation for the overall best portable power station. With a large battery capacity that can power a television for 21 hours and a variety of outlets and ports, it's suitable for home emergencies, camping, and job site use.

Can a portable power station charge a phone?

Some can only charge phones, and others can power your entire house. Check the output wattage and battery capacity to see what a portable power station is capable of. The Westinghouse iGen160s is a basic little power station capable of keeping your electronics charged during a brief power outage or camping trip.

How to choose a portable power station?

When selecting a portable power station, consider your needs. For small devices like headphones and smartphones, a compact portable power station of around 100Wh is sufficient, similar to a big power bank. However, for larger devices such as refrigerators or TVs, opt for a more heavy-duty option with 500Wh or more.

How much power does an anker portable power station have?

For example, A typical Anker portable power station can come with an impressive 2048Wh, far exceeding the capacity of any power bank. What's more, power stations offer diverse recharging options, including portable power stations with solar panels, while power banks mainly rely on wall chargers.
