Portable Power Banks in Asia

Overview

Are power banks banned in Asia?

Since then, a number of Asian airlines have implemented policies banning the usage of power banks mid-flight. Passengers will still be able to travel with them, but they won't be able to charge or use them while on the aircraft.

Are power banks allowed on AirAsia?

Power banks are prohibited from charging other portable electronic devices throughout the flight. Power banks are prohibited in checked-in baggage and must be carried in the cabin. To ensure compliance, AirAsia will display safety reminders at check-in counters, and reinforce the policy through boarding and in-flight announcements.

How to choose the best power bank in Singapore?

Think about how you use your devices day to day, and choose a powerbank that quietly supports that without getting in the way. That's the real win. Stay powered up with the best power banks in Singapore from the top brands. Find reliable portable chargers for all your devices here!.

Where are power banks now?

Power banks that were once openly flaunted across shopfronts and tabletops have become harder to spot. CNA observed that many are now tucked away in drawers or stacked in boxes beneath counters, kept out of sight as sellers weigh the risk of being penalised.

What do you need to know about the latest power bank bans?

Here's what you need to know about the latest bans. The push for stricter power bank rules gained momentum after a dramatic incident on January 28, 2025. An Air Busan Airbus A321, bound for Hong Kong from Gimhae International Airport in Busan, South Korea, caught fire just before takeoff.

How much does a powerbank cost?

Powerbanks range from \$30 to over \$150, but not everyone needs the most expensive model. For most people, something in the \$60-\$90 range strikes a good balance between features and cost. You only need to go above \$100 if you're charging laptops or carrying multiple devices every day.
