

SolarMax Energy Systems

Portuguese photovoltaic energy storage battery manufacturer

Our Lifepo4 batteries can be connected in parallels and in series for larger capacity and voltage.

Overview

StorSystems is driving the Portuguese energy transition by developing, building, and operating advanced battery storage systems. Battery storage allows power produced now to be stored for use later. It will be essential for a decarbonised and reliable energy network in Portugal. Why should Portugal be a reference space for innovation in batteries?

To promote the national value chain and innovation ecosystem in the international market for energy storage technologies and materials, positioning Portugal as a reference space for innovation in batteries.

Is Powin launching a battery energy storage system in Europe?

This project marks Powin's first venture in Europe. Global energy storage supplier Powin LLC and Portuguese integrated energy company Galp have partnered to install a utility-scale battery energy storage system (BESS) in Algarve, Portugal. The 5 MW/20 MWh battery system will be built at one of Galp's solar power plants near the village of Alcoutim.

What is battery Cluster Portugal?

Contribute to positioning Europe as a leader in battery technology and production Mitigation of the climate crisis Open to technology, innovation, and the creation of added value Battery Cluster Portugal é uma associação sem fins lucrativos que incentiva a I&D e os negócios relacionados com sistemas de armazenamento de energia.

How much solar power does Portugal have in 2022?

Portugal's cumulative PV capacity hit 2.59 GW at the end of 2022. It aims to install 20.4 GW of solar by 2030. The country has set a goal of at least 80% of electricity production coming from renewable sources by 2050. In November, it enjoyed a weekend of being powered solely by renewables.

What makes Moura photovoltaic panels different?

With regard to the photovoltaic panels being produced in Moura, Miguel Matias emphasised that “the biggest differentiator is the flexible and very light technology”, which allows them to be installed in “previously impossible places”.

How can we strengthen the competitiveness of the Portuguese industrial value chain?

To strengthen the competitiveness of the Portuguese industrial value chain and innovation ecosystem in batteries and energy storage technologies, through the development and transfer of new sustainable and disruptive technologies to the global market.
