

SolarMax Energy Systems

Power generation units are there in the Cambodian photovoltaic power station market

Overview

How many solar power plants are there in Cambodia?

Just two solar power plants are up and running in Cambodia at present, one a 10-MW plant developed by Singapore's Sunseap and another, 60-MW facility in Kampong Speu. Cambodia consumed a total of 2,650 megawatts of electricity in 2018, an increase of about 15% compared to 2017, according to the Ministry of Mines and Energy.

How many energy projects are coming to Cambodia?

The Cambodian Cabinet approved four energy projects this past April, a US\$231 million hydroelectric power and three solar power projects with a combined, rated, maximum power capacity of 140 MW. The latter are expected to come online and dispatch power to the national grid by 2020 and 2021 in four different provinces.

What are the main sources of electricity in Cambodia?

Major sources of local power generation are hydro and coal, and minor sources include diesel, wood, and biomass. In addition to local power generation, Cambodia also buys electricity from neighboring countries, especially during the dry season.

What is Cambodia national solar PV Park?

Cambodia National Solar PV Park is a 100MW solar PV power project. It is planned in Kampong Chhnang, Cambodia. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the partially active stage. It will be developed in multiple phases.

How much does solar energy cost in Cambodia?

One of the promising traits of solar energy in Cambodia is its cost. The average electricity price for solar power is around USD 0.03 per kW, significantly lower than that of coal, which is USD 7.7 per kW.

When will solar power be available in Cambodia?

Victor Jona said, "We expect that the four solar facilities will be generating power to the grid by early 2021." German companies had also shown an interest in Cambodia's clean energy sector following a conference on solar power held in Phnom Penh in 2019.
