

SolarMax Energy Systems

Power supply for communication base stations

Overview

Communications infrastructure equipment employs a variety of power system components. Power factor corrected (PFC) AC/DC power supplies with load sharing and redundancy (N+1) at the front-end feed dense, high efficiency DC/DC modules and point-of-load converters on the back-end.

Power supply for communication base stations

Equipment for Your Ham Radio Station

The transceiver operates on various frequencies, enabling communication with other radio operators. In addition to the transceiver, a power supply is crucial ...
