

**SolarMax Energy Systems**

# **Profitability of Somalia Energy Storage Project**

## Overview

---

What is the future of LPG in Somalia?

The LPG sector has high potential for growth and expansion in the country, including the development of onshore offloading bays, distribution logistics, retail, and franchising. Solar Energy: Somalia has high renewable energy potential. Solar power could generate an excess of 2,000 kWh if the country reached its full capacity.

What is the energy sector like in Somalia?

Somalia's energy sector is considered promising for growth and investment. Small and medium-sized private sector companies are the main providers of electricity generation and distribution, primarily running diesel powered systems through off-grid networks.

What is the Somalia electricity recovery project?

MOGADISHU, December 9, 2021 —The Somalia Electricity Recovery Project is set to increase access to cleaner, lower cost electricity for 1.1 million households, or approximately 7 million people, of which 3.5 million are women. The project also aims to reestablish a stable electricity supply and support regional integration.

Does Somalia have solar energy?

Solar Energy: Somalia has high renewable energy potential. Solar power could generate an excess of 2,000 kWh if the country reached its full capacity. Recently there has been progress in developing solar energy systems in the country by private sector electricity companies.

What is the Somali electricity project & why is it important?

The project also aims to reestablish a stable electricity supply and support regional integration. Out of a population of about 15 million, 9 million Somalis lack access to electricity services, and the cost of power is among the highest

in the world.

How much does electricity cost in Somalia?

Regarding costs per kilowatt-hour of electricity, Somalia has one of the highest unit prices in Africa. Somalia has higher tariffs than neighboring countries Kenya and Ethiopia, ranging from 50-125 cents/kWh compared to 0.15 cents/kWh in Kenya and 0.6 cents/kWh in Ethiopia. Somalia's energy sector is considered promising for growth and investment.

## Profitability of Somalia Energy Storage Project

### Somalia kicks off solar-plus-storage tender

Somalia's Ministry of Energy and Minerals has opened a tender for a hybrid solar-plus-storage project. The tender details state that the 12 MW solar and 36 MWh BESS project ...
