

SolarMax Energy Systems

Ranking of Cambodia s outdoor communication battery cabinet manufacturers

Overview

Does Cambodia have a sustainable electronics industry?

In Cambodia, no initiatives or NGOs focus exclusively on sustainable electronics. However, multiple issues in other industries (such as the garment sector) are also present in the EEE sector. As Cambodian electronics manufacturing increases its GDP share, adaptation of initiatives to this specific industry seems ineluctable.

What is the electrical and electronic market in Cambodia?

The Cambodian market for electrical and electronic products is segmented into two main categories: low-cost products from China with varying quality, and high-quality products for customers who are willing to pay more.

Are kitchen appliances a good investment in Cambodia?

For example, household appliances such as microwaves, toasters, coffee makers, etc. have not yet found their way into most Cambodian kitchens, offering potential good opportunities.

Who is Siemens representation Cambodia?

Siemens Representation Cambodia has been set up in 1998 and is today part of Cambodia's sustainable development initiatives. Siemens Cambodia offers a complete portfolio of products, systems, solutions and services from a single source.

How many people work in Electrical & Electronics Manufacturing in Cambodia?

In 2021, Cambodia has approximately 54,000 people working in electrical and electronics manufacturing, which account for about 1.43% of the country's total employment. For comparison, the industry employed 600,000 people in Thailand (1.57% of the workforce) and more than a million in Vietnam (1.78% of the workforce).

Why are high-quality end-consumer products becoming more popular in Cambodia?

With a steady rise in household income, higher-quality end-consumer products are likely to get increased attention in Cambodia, where the ownership rate of most consumer devices other than cell phones is still relatively low.
