Replace the AA battery pack with lithium batteries

Overview

One lithium-ion battery can substitute for three alkaline AA batteries. For instance, if a device such as a remote control demands eight AA alkalines, three lithium-ion batteries (like the 14500 type) along with dummy batteries can be used to fill the remaining slots.

Replace the AA battery pack with lithium batteries

How to Replace Two AA Batteries With a Rechargeable Lithium ...

Replace your AA batteries with AA size LiPo batteries and you will get to keep taking photos much longer. When the LiPo batteries run out of power, all you do is recharge them for a few hours ...
