

## SolarMax Energy Systems

# Romania BESS outdoor battery cabinet

## Overview

---

What is a Bess battery?

The small BESS series is a fully integrated battery energy storage system that's built to last. The Series is both scalable and engineered for modularity with a low MTTR, making it ideal for medium renewable energy projects. It offers flexible and scalable designs for various applications, whether you need a small or medium energy storage solution.

What are the different types of Bess cabinets?

Our BESS is modular, which means you can mix and match cabinets to suit your system requirements. Plus, it comes in two variants, AC Single Bay and AC Dual Bay. Medium BESS Cabinets The medium series battery energy storage system is designed with versatility and scalability in mind.

Why should you choose a Bess energy storage system?

It offers flexible and scalable designs for various applications, whether you need a small or medium energy storage solution. Our BESS is modular, which means you can mix and match cabinets to suit your system requirements. Plus, it comes in two variants, AC Single Bay and AC Dual Bay.

What kind of batteries can be stored in a rack mount cabinet?

All-in-one design, store the leading brands of 19" rack mount type lithium batteries, inverters and controllers. DC48V powered air conditioner, heat exchanger or TEC coolers are optional, which can cool down the devices installed inside the cabinet. Battery Storage Space based on the battery specification.

What is a large Bess cabinet?

Large BESS Cabinets Our large bess Series features an AC single bay module capable of 29.7kW with options available up to 1MW clusters. These modules are perfect for on-grid solutions, providing reliable power for your

applications. They are fully customisable and versatile, suitable for almost any on grid application.

Why do you need an outdoor Battery Cabinet?

The cabinet is designed specifically to protect it from human damage, water, dust and other damages. Climate controlled products such as air conditioners, heat exchanger, or TEC coolers are installed on outdoor battery cabinet for keeping a stable temperature inside cabinet so as to increase service life and stability of battery.
