

SolarMax Energy Systems

Romania pack battery manufacturer

Overview

Is Romania planning a second lithium-ion battery factory?

iulian@romania-insider.com Romania's lithium-ion battery manufacturer Prime Batteries Technology, founded and controlled by Romanian entrepreneur Adrian Polec, confirmed plans for a second factory with an intended capacity of 6 GWh according to Profit.ro. The company reached a production capacity of 2.3 GWh of power.

Will Romania reopen a call to support battery storage projects?

Romania's Ministry of Energy has reopened its call to support projects of battery storage for renewable energy integration, seeking at least 240 MW and 480 MWh of resources. The original call, which referred to at least 620 MWh, was expected to see projects selected by the end of 2023, according to reports.

What type of battery cells will be built in Romania?

There are no details yet on the type of battery cells to be built in Romania. If Dacia is to be supplied, the cells will be very cheap, as the carmaker had recently repeatedly emphasised that it wanted to offer not the best, but the cheapest electric car.

How much does Romania spend on battery energy storage in 2026?

Romania has also earmarked EUR 199 million to support new capacities for the production and recycling of batteries and solar cells and panels. With this reopened bidding, the ministry aims to see the two-hour duration battery energy storage system (BESS) facilities up and running by mid-2026. The budget for the BESS projects is EUR 79.6 million.

Where is Abee building a battery cell factory in Romania?

Belgian company Avesta Battery and Energy Engineering (ABEE) is building a battery cell factory in Romania that will mainly supply cells for the automotive

industry. ABEE is investing 1.4 billion euros in the cell factory called Romvolt, which will be located in Galați in eastern Romania.

How much will Romania Invest in a recycling plant?

In a second phase by the end of this decade, another 200 million euros will be invested to build a recycling plant at the site with a capacity of 50,000 tonnes per year. The cells will primarily be supplied to the carmakers Renault-Dacia and Ford, which are also based in Romania.
