Sao Tome and Principe Huijue Photovoltaic Module Project

Overview

Are there any studies on solar power potential in Sao Tome & Principe?

2. Solar PV: As per the publication “Emission Reduction Profile: Sao Tome and Principe”, June 2013” prepared by RISO with the support of ACP-MEA & UNFCCC, there are, to date, “no official studies on the exact solar power potential: therefore, further calculations of the emissions reduction potential can be hazardous”.

Will Sao Tome & Principe get a 2 MW solar project?

The island nation of Sao Tome and Principe switched on the initial phase of its first 2 MW solar project in August. Construction of 1.4 MW of PV capacity is now underway at two airports, and developers plan to install a total of 1.7 MW by 2023.

How is Sao Tome & Principe generating electricity?

Medium The Government of Sao Tome and Principe is strongly motivated to increase and diversify its generation capacity through mini/small hydropower plants and is driven by its plans to increase access to electricity services to the population.

What is the Sao Tome & Principe project?

Brief Description: The objective of the project is to introduce an integrated energy and ecosystems-based approach to grid/isolated-grid-based mini/small hydro-electricity generation in Sao Tome and Principe by leveraging \$ 20.7 million in multilateral and private sector financing over its five-year implementation period.
