Saudi Arabia s new energy solar power generation for home use

Overview

- The Sakaka solar plant is located in Sakaka City, Saudi Arabia. Construction on the project began in November 2018 and the project finished in November 2019. The plant produces roughly 900 GWh of electricity per year, which mitigated the release of 600,000 tons of carbon dioxide. Additionally, Sakaka powers over 75,000 homes.
- Conergy is a Germany-based solar energy company that wanted to branch out into the Saudi Arabian market. Conergy believes that Saudi.
