

## SolarMax Energy Systems

# Seychelles solar photovoltaic inverter

## Overview

---

Who installs roof top solar photovoltaic PV systems in the Seychelles?

Sine 2012, ESS has been installing rooftop solar photovoltaic PV systems in the Seychelles. Therefore, we have experience with grid-tied roof top solar PV system. Also we are an approved installer by the Seychelles Energy Commission and Public Utility Corporation.

How does solar PV work in the Seychelles?

Currently, Seychelles has a net metering policy where electricity produced by your solar photovoltaic PV systems is recorded to a separate meter. PUC then credits your electricity bill at the end of each month. Further details on how solar PV works in the Seychelles please see our Frequently Asked Questions page.

Who is SUN Tech PV energy company Seychelles?

Since 2009 our team has been sourcing out and installing the best solar photovoltaic (PV) technology available on the global market. At Sun Tech PV Energy Company Seychelles our aim is to ensure that your PV technology and installation is of the highest quality in order for it to live up to its life expectancy.

How does a hybrid system work in Seychelles?

A hybrid system uses both the grid and batteries. Currently, Seychelles has a net metering policy where electricity produced by your solar photovoltaic PV systems is recorded to a separate meter. PUC then credits your electricity bill at the end of each month.

What is a grid-connect solar photovoltaic PV system?

A grid-connect solar photovoltaic PV system are installed at your premise and use the PUC electrical grid network to feedback electricity produced by your system. For stand-alone, off-grid or battery back up system PV systems which

are independent of the PUC network and use battery storage see our off-grid solar PV page.

How do photovoltaic panels work?

During the day the photovoltaic panel convert the sun's energy to electricity. There are two types of PV panels depending on the manufacturing process, poly-crystalline or mono-crystalline. The panels are arranged on the roof in an array and connected to an inverter.
