

SolarMax Energy Systems

Slovenian companies producing outdoor power supplies

Overview

What are the main sources of electricity in Slovenia?

A paid subscription is required for full access. Nuclear power is the most used source of electricity production in Slovenia. In 2022, nuclear power plants accounted for 42 percent of total electricity generation. Coal-fired and hydropower plants followed, each making up approximately 24 percent of power production that year.

Where do Slovenian electricity suppliers trade?

Slovenian electricity suppliers trade on foreign electricity markets, including the European Energy Exchange and the BSP SouthPool Regional Energy Exchange. For instance, GEN-I bought and sold over 3.3GWh in Germany and Austria, 2.5GWh in Bulgaria and Romania, 1.1GWh in Hungary, and 2.5GWh in other Southeast European markets in 2010.

What is Slovenia's energy industry like?

Slovenia's energy companies are active in developing innovative electricity transmission and distribution solutions, while the country's energy infrastructure is among the strongest in the region. Ministry of the Environment, Climate, and Energy Langusova 4, SI- 1000 Ljubljana, Slovenia.

What electronic products are made in Slovenia?

Small series and innovative electronic products from Slovenia include, among others, advanced medical and dentistry laser systems, sensors for industrial and medical applications, LED optoelectronic devices, and lab equipment. The industry enjoys strong support from local research and academic institutions.

Who makes the best home appliances in Slovenia?

Gorenje is now a part of the Chinese Hisense group and remains one of the largest companies in Slovenia. It is not only the Chinese that rely on Slovenian tradition and know-how. Bosch Siemens has located one of its excellence

centres for small home appliances in Slovenia.

What makes Slovenia a strong manufacturing sector?

Not surprisingly, the sector is one of the strongest in Slovenian manufacturing with close to 5 billion euros of annual turnover and around 30,000 employees. This was made possible by a high standard of quality, strong R&D, and constant innovation integrated into its processes.
