

SolarMax Energy Systems

Sodium-ion battery energy storage project

Application scenarios of energy storage battery products

Overview

Several projects worldwide are currently exploring the potential of sodium-ion batteries for grid storage. One notable example is the Faraday Institution's NEXGENNA project in the United Kingdom, which aims to advance sodium-ion battery technology and make it commercially viable.

Sodium-ion battery energy storage project

Smart Sodium Storage System Project - Developing novel sodium-ion

The Smart Sodium Storage System (S 4) Project is a \$10.6M project which aims to develop and demonstrate novel sodium-ion battery technologies for use in renewable energy storage ...
