

## SolarMax Energy Systems

# Solar 3kW water pump inverter

## Overview

---

How do I choose a 3 phase 380V solar water pump inverter?

In selecting a 3-phase 380V solar water pump inverter, ranging from 0.37kW to 250kW, it's critical to understand both the key considerations for choosing an inverter and the diverse application scenarios where solar pump systems can be effectively utilized.

What is a 3-phase solar pump inverter?

This comprehensive approach ensures that the inverter not only meets technical specifications but also aligns with the practical demands of its intended use. A 3-phase solar pump inverter is a critical component in solar water pumping systems, designed to convert the DC power from solar panels into a three-phase AC output.

What is a solar pump inverter?

Solar Pump Inverter Solar pumping system is a series-parallel absorb sunlight radiation energy through solar panels and convert DC into AC power by inverter to drive centrifugal pump, axial flow pump, mixed-flow pump of deep well water pump system.

Which solar water pump inverter is available online?

The 5.5kW three-phase AC 220V solar pump inverter is now available online. This solar pumping inverter integrates advanced MPPT tracking for precise voltage detection and optimal performance. The solar water pumping system supports AC and DC input, with a DC voltage range of 300V~380V and a power factor >0.99.

What is a 4 kW solar pump inverter?

4 kW solar pump inverter with MPPT tracking technology for sale, AC output current 9A at 3-phase, DC voltage range (280V, 750V). Output frequency 0~400 (Hz) and power factor >0.99. The pump inverter supports AC and DC

input, storage temperature (-20°C, 60°C) and ambient temperature (-10°C, 40°C).

What is a 15 hp water pump solar inverter?

15hp water pump solar inverter with MPPT control, AC 25A output at 3-phase, rated power 11kW, and DC voltage range (280V, 750V). 15 hp solar pump inverter with RS485 communication and IP20 protection, supports AC and DC input, works at (-10°C, 40°C).

## Solar 3kW water pump inverter

---

### 3kw Solar Pump Inverter, AC Three Phase 220V - GLP3KL

The solar pumping inverter converts DC power produced by solar panels to AC power which drives AC pump to pump water from borehole, river, lake etc. to the storage device.
