

SolarMax Energy Systems

Solar Energy Storage System Project

Overview

“Storage” refers to technologies that can capture electricity, store it as another form of energy (chemical, thermal, mechanical), and then release it for use when it is needed. Lithium-ion batteries are one such technology.

Solar Energy Storage System Project

SFPUC Commits to New Solar and Battery Energy Storage Project ...

The 15-megawatt 4-hour battery energy storage system will be able to store the solar energy produced during the day for use at night. "We're continuing to strengthen San Francisco's ...
