

SolarMax Energy Systems

Solar all-in-one machine for home use with zero electricity bill

Overview

Which solar & off-grid home power systems go fully off-grid?

Solar & Off-Grid Home Power Systems Go Fully Off-Grid with the Walrus Pacific Solar Battery Kit BatteryEVO's Walrus Pacific 62 kWh battery + 12.5 kVa inverter + 4 kW PV solar kit will provide a week of power outage protection.

How does a solar energy system work?

From sunrise, the system captures solar energy and delivers it directly to your home through its grid-tied output. Surplus energy is automatically stored for use during peak hours, at night, or in the event of a short-term outage.

How does a solar inverter work?

With a charger controller, a display with remote monitoring, and many other built-in features. This inverter is flexible, efficient, and simple to install to a Grid-tied, Off-Grid, or battery backup solar system while being able to manage power to and from Solar, Battery, Grid, Loads, and Generator.

Are DIY solar panels UL certified?

Connect some batteries and solar panels, change the settings, and you are done. The DIY battery community has used these units 24/7 for years! They are extremely dependable. As of 2021, they are now UL certified! This means that the components inside the units are high quality.
