

## SolarMax Energy Systems

# Solar automatic tracking lithium battery charging system

## Overview

---

This project aims to produce energy by maximizing the amount of solar energy that is absorbed, store it in a battery which has auto cut-off circuit to charge the battery, only to its required potential and stop the charging process and further convert the low voltage DC supply provided by the battery to a standard power supply i.e 230V/50 Hz AC supply.

## Can I Leave a Lithium Battery Charging Overnight

Yes, you can usually leave a lithium-ion battery charging overnight--but with

✓ 50KW/100KWH

✓ HIGHER POWER OUTPUT  
IN OFF-GRID MODE

✓ CONVENIENT OPERATION  
& MAINTENANCE

✓ PRE-WIRED

precautions. Modern devices have safeguards to prevent overcharging, but risks still exist. ...
