

SolarMax Energy Systems

**Solar energy storage batteries
are placed outdoors in winter**

Overview

We strongly advise against leaving solar batteries outside in winter. Sub-zero temperatures can irreversibly damage the cells, especially in the case of lead-acid batteries. Lithium batteries are more resistant, but their performance drops drastically below 0°C.

Solar energy storage batteries are placed outdoors in winter

How To Keep Solar Batteries Warm In Winter: ...

Batteries need a warm place in winter. A cold battery will not work well. An insulation box can be made for the batteries. This box will keep them from
