

SolarMax Energy Systems

Solar photovoltaic panels on the island

Overview

What is the focus of Island Solar?

Island Solar is based in Nassau, Bahamas and is committed to installing safe, high quality, code compliant and long lasting solar electric (photovoltaic) systems in the Bahamas and across the Caribbean.

What is solar PV on a resort island?

Solar PV on a resort island a clear sustainability message to your clients and partners Swimsol provides a unique solution to achieve desired solar production capacity – floating solar powerplant at sea (offshore solar). SolarSea produces 5-10% more energy due to natural cooling at sea.

Why do you need a solar panel installation service?

Depend on solar energy to power your home for lower costs and energy independence. Discover how our solar panel installation services make transitioning to solar smooth and hassle-free.

Are solar panels a good investment?

A professionally installed solar energy system is a valuable asset. Investing in solar panels not only saves you money but also substantially increases your property's value, making it more appealing to future buyers. Join the global movement towards renewable energy.

What is a Eforce solar panel system?

Specializing in robust solar panel systems that work seamlessly with battery backup and your existing generator, built for the unique demands of Caribbean islands. A flexible, scalable battery solution by Fortress Power Flexible energy storage, reliable backup, and long-term resilience with the eForce System from Fortress Power.

Can Tesla Powerwall be used with solar panels?

No project is too small or too large! it's an efficient backup designed to store excess energy and to know when you need it most. Tesla Powerwall can be used with or without solar panels. Perhaps a better question is, "why NOT switch to solar?"

".
