

SolarMax Energy Systems

Solar photovoltaic system for rural households in Peru

Overview

The country-wide Massive Photovoltaic Programme was launched in 2017 as part of the rural electrification plan, and aims to use solar PV systems to electrify the most remote rural areas of the country where there are high levels of poverty and that geographically are beyond the reach of the conventional grid.

Solar photovoltaic system for rural households in Peru

Project Solar energy for improved rural livelihoods in Peru

Discover how solar energy is transforming the lives of rural native communities in Peru, combating poverty, and preserving the Amazon rainforest. Learn about their vital role in environmental ...
