

SolarMax Energy Systems

Solar power generation and energy storage manufacturers in the Democratic Republic of Congo

Overview

Could solar power change energy consumption in Congo?

Solar power could change energy consumption in Congo. - The Loudima family in Congo have long been without electricity but they have found an environmental solution: solar power. In the remote districts of Pointe Noire, the Congolese start-up Hélios Électricité has installed a solar power plant.

Does the DRC have solar power?

Solar In addition to hydropower, the DRC possesses significant potential for solar energy, offering a potential of 70 GW with noticeably high solar radiation averaging 6 kWh/m² /day.

Should solar investors invest in DRC?

Several solar investors have explored the DRC market and are in the process of signing MOUs with the government. The GDRC seeks firms with financing and experience to collaborate with local and parastatal firms to build these power-generating facilities.
