

SolarMax Energy Systems

Solar power supply system communication module

Overview

By connecting a solar power supply to a GPRS module, users can remotely oversee energy production, consumption patterns, and battery status. The functionality of GPRS allows for two-way communication, enabling not just monitoring but also control capabilities.

Solar power supply system communication module

How to connect solar household power supply to GPRS

By connecting a solar power supply to a GPRS module, users can remotely oversee energy production, consumption patterns, and battery ...
