

## Overview

---

The Red Sands project will be the largest standalone BESS to reach this stage on the continent, designed to store power during off-peak hours and release it when demand is highest—providing essential grid stability and flexibility for South Africa's electricity network.

## South Africa's grid-side energy storage lithium battery

---

### Policy Hurdles Impeding Battery Energy Storage Deployment ...

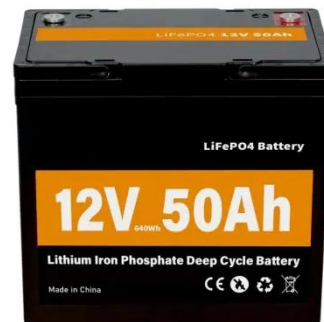

The promotion of the energy storage ecosystem, paired with South Africa's abundant reserves of key materials for battery storage technologies, such as manganese, vanadium and the ...
