

## **SolarMax Energy Systems**

# **Spanish mobile energy storage cabin price**

## Overview

---

How does Spain's pumped hydro energy storage compete with Bess?

Spain's pumped hydro energy storage competes directly against BESS, limiting the battery storage opportunity in wholesale markets. 3. Missing ancillary markets Unlike Great Britain or Texas, Spain never created ancillary service markets that net-zero systems need:.

How will negative energy prices affect Spain?

Two structural factors limit how negative Spanish prices can go: Limited interconnection: Spain's 3 GW link with France is isolating it from the negative price contagion in Central Europe. When German prices reach -€150/MWh, Spain can't import enough energy to bring the price down.

Can batteries access the balancing market in Spain?

Balancing markets are another key source of battery revenue, but regulatory reform is required for batteries to access the Spanish balancing market. This is likely to happen relatively quickly but creates uncertainty around the level of balancing revenues.
