St Kitts and Nevis Energy Storage Power Solution Development

Overview

Does St Kitts and Nevis have a national energy policy?

Yes, St. Kitts and Nevis has a National Energy Policy (NEP). The key provisions of this policy include connecting large-scale independent power providers and many distributed renewable energy systems to the electrical grid. Not all generation is made publically available; this chart provides known and referenceable data.

Can St Kitts & Nevis be a sustainable island state?

Developing a geothermal power project has been a transformative process for St. Kitts and Nevis, setting it on a path to being a fully sustainable island state.

Does Saint Kitts & Nevis have geothermal power?

Saint Kitts & Nevis possesses distinct advantages for geothermal development that make it particularly promising. As Minister Maynard explained, “The heat amount is much closer to the surface than in other areas of the world, so you don’t have to drill as deep to get to it.”.

How much energy is lost in St Kitts & Nevis?

Reports indicate that in St. Kitts and Nevis, higher losses are largely attributable to nontechnical losses such as unmetered consumption, leading to losses that are higher than the U.S. Energy Information Administration's average transmission and distribution loss of 6%. By comparison, the U.S. Energy Information Administration reports an average transmission and distribution loss of 6%.

How much does electricity cost in St Kitts & Nevis?

The electricity rates in the Federation of St. Christopher (St. Kitts) and Nevis are \$0.26 per kilowatt-hour (kWh). This is lower than the Caribbean regional average of \$0.33/kWh.

What does a unified energy grid mean for St Kitts and Nevis?

The unified grid represents a physical manifestation of the political collaboration now taking place between the federal government and the Nevis Island Administration. Perhaps the most ambitious aspect of St. Kitts and Nevis' energy vision is the potential to move beyond self-sufficiency to become a net energy exporter to neighboring islands.
