

SolarMax Energy Systems

Subsidies for solar power systems

Overview

If you invest in renewable energy for your home such as solar, wind, geothermal, fuel cells or battery storage technology, you may qualify for an annual residential clean energy tax credit.

You may claim the residential clean energy credit for improvements to your main home, whether you own or rent it. Your main home is generally where you live most of the time.

The Residential Clean Energy Credit equals 30% of the costs of new, qualified clean energy property for your home installed anytime.

Qualified expenses include the costs of new clean energy property including: 1. Solar electric panels 2. Solar water heaters 3. Wind.

Are there grants & funding options for solar energy in 2025?

Luckily, the U.S. government has your back. Whether you're a low-income homeowner or a rural resident, there are plenty of grants and funding options in 2025 to make solar energy accessible, affordable, and efficient.

What grants are available for solar panels?

1. Green Retrofit Solar Panel Grants Note: Funds must be used within 2 years of receiving them. 2. High Energy Cost Grants Extra tip: You must prove your area's average energy cost exceeds 275% of the national average. 3. Weatherization Assistance Program (WAP) 4. Low-Income Home Energy Assistance Program (LIHEAP).

What is the \$7 billion solar for all program?

Under the \$7 billion Solar for All program, the 60 grant recipients will create new or expand existing low-income solar programs, which will enable over 900,000 households in low-income and disadvantaged communities to benefit from distributed solar energy.

Can I get a tax credit if I have a solar system?

Power your fridge, air conditioner, or entire home using the sun. ☀ Tax Credits and Rebates The Federal Investment Tax Credit (ITC) still offers up to 30% credit on your solar system. Some states and utilities also offer:.

What solar incentives are available?

The most important solar incentive is the 30% federal solar tax credit, which is available to taxpayers across the country. There are also other solar incentives, rebates, and tax breaks available from utility companies or state and local governments. It can be hard to find solar incentives if you don't know what you're looking for.

How will EPA's 60 solar for all program help low-income households?

EPA estimates that the 60 Solar for All recipients will enable over 900,000 households in low-income and disadvantaged communities to deploy and benefit from distributed solar energy. This \$7 billion investment will generate over \$350 million in annual savings on electric bills for overburdened households.
