

SolarMax Energy Systems

Substations and backup power generation

Overview

The substation may include the following equipment: 1. Power transformer or distribution transformer (depending on substation type) 2. Circuit breakers 3. Disconnecting switches 4. Isolators 5. Busbars 6.

Substations and backup power generation

Back-up Power

5.4 Backup power and UPS The selection of uninterruptible power supply (UPS) with back-up power devices is an important issue of great concern in case of fault conditions ...
