

SolarMax Energy Systems

Swaziland benefits most from household energy storage

Overview

Where can I find information on energy access in Swaziland/Eswatini?

Find relevant information for Swaziland/Eswatini on energy access (access to electricity, access to clean cooking, renewable energy and energy efficiency) on the Tracking SDG7 homepage. (Sustainable Development Goal indicators 7.1 energy access, 7.2 on renewable energy and 7.3 on energy efficiency).

What are the biggest energy issues in Swaziland/Eswatini?

Find a summarized energy profile for Swaziland/Eswatini (Atlas of Africa Energy Sources). Power Africa states these issues as the biggest for the country's energy sector : Lack of clarity in roles for procurement between the Swaziland Energy Regulatory Authority (SERA) and SEC.

How is the Swazi government advancing its energy infrastructure?

In collaboration with private entities and foreign aid programs, the Swazi government is taking crucial and necessary steps to advance its energy infrastructure and deliver power to the 17% of the population (more than 200,000 people) living without it.

How can the Swazi government re-electrify emerging economies?

Through hands-on investment and partnerships with private corporations, the Swazi government exemplifies how emerging economies can electrify their populations with cutting-edge renewable energy technology. There is still much work and foreign investment can accelerate the process.

Is Eswatini a sustainable country?

A nation that has long relied on neighboring South Africa and Mozambique for unsustainable fossil fuel-based electricity imports, renewable energy in Eswatini is quickly diversifying. The transformative journey culminated at the COP26 conference, where Eswatini committed to an ambitious 50% surge in renewable energy production by 2030.

What is the main energy source in Eswatini?

Hydroelectric power currently stands as one of the most prominent energy sources in Eswatini. The EEC operates four hydropower plants, constituting 15% of the country's electricity production and plans to bolster the existing infrastructure.
